BOER WAR AT AN END.

General Kitchener Cables That Terms of Surrender Have Been Agreed To.

DOCUMENT SIGNED BY BOTH SIDES.

Staid London Gives Vent to Its Joy by Prayers of Thanksgiving, Ringing of Bells, Tooting of Horns, Etc.

London, June 2.—An official cablegram from Lord Kitchener, dated at Pretoria, says: "A document containing terms of surrender was signed here Saturday evening at 10:30 by all the Boer representatives as well as by Lord Milner (the British high commissioner in South Africa) and myself."

The news of peace in South Africa, contained in the foregoing dispatch from Kitchener, was not expected in London Sunday. Soon after the receipt of the dispatch, however, the news spread to the clubs and hotels and was received with much enthusiasm. The church bells were rung to acclaim the good news. A crowd gathered at the Mansion house and the lord mayor of London, Sir Joseph C. Dimsdale, announced from the balcony that terms of surrender had been signed in South Africa.

Lord Kitchener's definite announcement of peace was received at the war office at 1 o'clock Sunday afternoon, and was communicated to King Edward and all the members of the cabinet before it was given to the public. The Sunday evening calm of London streets was broken by enthusiastic singing, shouting and horn-blowing. The hotels, the clubs, the public houses and the streets were not the only places where the people were actively demonstrating their joy. The peace news was announced in the churches, and by some congregations it was received with applause. In all the churches of London prayers of thanksgiving were offered and special hymns were sung.

Terms Liberal.

Washington, June 2.—The officials of the British embassy here share the jubilant feeling existing in London over the termination of the war in South Africa. They view with much satisfaction the close of the long struggle. The impression prevails in official circles that the terms of surrender named by the British in their negotiations with the Boers have been very liberal in character, perhaps from the double desire to bring the war to a close and to have this happy event formally proclaimed before the coronation of King Edward in June.

Transvaal Bonds.

Pretoria, June 2.—A proclamation which was issued Saturday in connection with the signing of the peace terms declares that, notwithstanding the proclamations of Mr. Kruger that interest on the bonds of the Transvaal republic would be suspended as long as the war lasted, such interest will begin to accrue June 1. June 26 and 27, the days of King Edward's coronation, have been proclaimed holidays here.

Welcome Peace News.

Ottawa, June 2.—The peace news from South Africa was greeted here by demonstrations of joy. The mayor has arranged for a demonstration to celebrate the ending of the war. Flags will be hoisted on public and private buildings, a royal salute will be fired and the school children will be given a half-holiday. At night there will be a display of fireworks and a military parade.

GOVERNOR TAFT

Is Received at Once by Cardinal Rampolla at Vatican.

Rome, June 2.—Governor Taft, Mrs. Taft, Judge Smith and Major Porter, accompanied by Bishop O'Gorman, were received at the station by Secretary Iddings of the American embassy. Consul General De Castro and Monsignor O'Connell also were at the station. Judge Taft expressed an intention to set to work immediately to have the negotiations concluded in the shortest time possible in which he hopes to be met half way by the vatican. In fact, Cardinal Rampolla, to remove delay, received Judge Taft at once, which is considered a great concession from the rigid ceremonial of the vatican.

Sandusky, O., June 2.—Harry Dunham and Roy Knowlton, each 12, and living in Castalia, were fishing on the long bridge of the Lake Shore crossing the bay. They stepped from one track to get out of the way of a freight and were struck by a passenger train. Both were hurled into the bay and drowned.

MOUNT PELEE'S CRATER.

Nervy Professor Makes the Ascent. What He Saw.

Fort de France, June 2.—The National Geographic society has scored a great triumph. Professor Angelo Hellprin ascended to the top of the crater of Mont Pelee, in company with two guides and Mr. Leadbetter. While on the summit several violent explosions occurred, but notwithstanding the thousand dangers surrounding him Professor Hellprin spent a long time taking care of the observations. Looking down the crater he found a huge cinder cone. The crater opening is a vast crevasse 500 feet long and 150 feet wide. While engaged in this task the lives of the members of the expedition were continually in danger, and one particularly violent explosion covered Professor Hellprin from head to foot with the viscid matter. He persisted, however, and found, as had been suspected, that there were three separate vents for the volcanic matter.

Meanwhile Mont Pelee, seeming to resent the intrusion of man into her awful territory, belched out huge volumes of steam, ashes and boiling hot mud. Professor Hellprin made the important discovery that the crater of Fallaise has an eruption at the same time as the summit crater, and objects precisely the same matter. Both craters showed a new phenomenon during the professor's visit, when mud was thrown up in high columns, while heretofore the mud has bubbled or boiled out and flowed downward in huge streams. There is reason to fear that great damage may result from the outbursts of this mud to the rich plantations still uninjured.

The ascent was made on mules to an altitude of 700 meters, the line of ancient vegetation. There leaving, the mule that had carried him, the professor proceeded on foot to the site of Lake Palmiste. He found the lake completely dried up and crossed the bed, passing up a slope to the crater's edge. This, which had formerly been a high bluff, Professor Hellprin found had fallen into the crater. This expedition is the first important verified topographical alteration noted. Professor Hellprin remained at the summit crater over two hours.

Boxer Insurrection.

Victoria, June 2.—Advices have been received by the steamer Claveling that he different missions at Peking have been informed that at southwest Chi Li a new Boxer insurrection has broken out, led by Go Chi Hing, who killed his wife and family and others. The Boxers first murdered a French missionary and later killed a Belgian priest and 50 Chinese officials engaged in collecting taxes. A church was destroyed at Wei Hien, where a native missionary was killed and a large number of converts slaughtered. Troops were sent against the Boxers, who defeated them. The rebels are credited with a program of overrunning Ho Nan and Shan Tung, and then making for Peking. They are well armed.

To Test Willis Tax Law.

Columbus, O., June 2.—Fifty of the leading manufacturing concerns of Stark county, representing millions of invested capital, began suit against the Willis franchise tax bill in the Franklin county court of common pleas and obtained a temporary restraining order against Secretary of State Laylin, whose duty it is under the law to collect the taxes. Under agreement Attorney General Sheets, for the state, will file a demurrer and the petition will be dismissed. Immediately a motion will be made in the supreme court for leave to file a petition in error, thus bringing the matter squarely before the highest tribunal in the state for adjudication.

Bicyclists Collide.

Lancaster, Pa., June 2.—One man is dead and another dying as the result of a bicycle collision which occurred here. The victims are Walter Powell and Daniel Treewitz, each about 17 years old. Powell is a speedy amateur bicyclist. Paced by Treewitz he was training for a race on Wheatland avenue. It was dark and neither bicycle had a lamp. Powell, thinking he had outstripped Treewitz, turned to find him, and they collided, both being thrown violently to the street. Powell was carried unconscious to St. Joseph's hospital. His skull was fractured and he died without having regained consciousness. Treewitz is probably fatally hurt.

Badger For Congress.

Columbus, O., June 2.—Franklin county Democrats, at their primaries, nominated a county ticket, the contests for some of the nominations being rather warm. Judge Dewitt C. Badger of the common pleas bench was named for congress over Representative E. J. Bracken by a vote of nearly five to one.

BIG STRIKE IN EFFECT.

Anthracite Engineers, Firemen and Pumpmen Demand an Eight-Hour Day.

CLAIMED NEARLY ALL ARE OUT.

Operators Have a Small Army of Men Sworn In as Officers to Protect the Mines—Trouble Anticipated This Week.

Wilkesbarre, Pa., June 2.—The beginning of what is looked upon as a most important week in the progress of the anthracite coal miners' strike finds the entire region in an apprehensive mood. At 7 o'clock this morning the order of the United Mine Workers of America calling out all the stationary engineers, firemen and pumpmen unless the companies grant them an eight-hour workday at present wages, went into effect. Victory for either side will be of immense advantage, and both parties to the controversy are striving with all the power at their command to win. If the union succeeds in shutting down all the pumps the mine properties will suffer damage that may reach into millions of dollars, and if the employers should be able to keep the water out of their workings without the aid of organized labor it means that the power of the union in the anthracite region has reached its limit, and that all help in the effort to force the mine owners to grant the demands of the great army of 147,000 men must come from some outside source. The mine workers say they will preserve the property of the companies if the engineers, pumpmen and firemen are given what they ask for, and the companies say they will permit no outsiders to fix the hours and wages of their men.

President Mitchell said that this is the first time in the history of his organization that the union was compelled to call out this class of employees and thus endanger the safety of the mines. In all other instances, he said, the demands were granted.

There is a fear throughout the coal belt that the coming week will witness more or less serious disturbances. It is claimed by the union that nearly all of the pumpmen and firemen have quit work, and that about three-fourths of the engineers also refused to continue work. This claim was privately admitted by a company official familiar with the situation.

Practically all the nonunion men to be employed are now in the region. The companies say that the number of those who have volunteered to fill strikers' places has been surprisingly large and that no difficulty has been encountered in selecting good men. An army of approximately 3,000 armed coal and iron policemen, sworn in under a law of the state of Pennsylvania, is in the field ready to protect these men and the mining properties. There are also scattered throughout the country, it is said, about 1,000 men who are doing secret work for the companies. Every colliery in the coal belt has either a board or barbed wire fence around it. At some mines "camp" cars are lying on the siding for the accommodation of nonunion men, most of whom will live within the colliery confines during the suspension.

Specials Hooted and Hissed.

Hazleton, Pa., June 2.—The scene that occurred here Saturday night upon the arrival of a deputation of special officers was repeated Sunday evening when about 20 officers, in charge of a coal company agent, boarded a trolley car at the Hazleton House for Freeland. The streets of the city were crowded and when the officers came into sight about 500 men rushed at them hissing and yelling. It was feared that the crowd would attack the officers, and trouble would undoubtedly have occurred had not Chief of Police Ferry and four of his men held the excited strike sympathizers back until the car left.

Went Out in a Body.

Mahanoy City, Pa., June 2.—Three-fourths of the firemen, hoisting engineers and pumpmen comprising the day forces employed at the 15 collieries of the several mining corporations in this valley, quit in response to the call of the miners' organization for an eight-hour day. Representatives of the coal companies say they are amply prepared to cope with the strike situation, and that they have enough nonunion men to fill the strikers' places.

Feeling Against Officers.

Hazleton, Pa., June 2.—The several hundred special officers brought here for guard duty at the collieries in the Hazleton district were distributed to the mines. They will be housed and boarded at the breakers. Public sentiment here is against the special officers, and the local labor union made an effort to induce the servant girls at the hotel where the men remained over night to strike. The girls are still at work. Some of the mine workers' leaders think the officers are non-union firemen and pumpmen.

ment here is against the special officers, and the local labor union made an effort to induce the servant girls at the hotel where the men remained over night to strike. The girls are still at work. Some of the mine workers' leaders think the officers are non-union firemen and pumpmen.

Voted Not to Strike.

Susquehanna, Pa., June 2.—The firemen, pumpmen and engineers employed in the Erie Railroad company's mines at Forest City, Susquehanna county, have voted not to strike. In anticipation of trouble the company's property has been inclosed with an eight-foot barbed wire fence, and will be guarded by a large force of coal and iron police, sworn in by the authorities of Susquehanna county.

FIRST MISHAP.

Member of French Mission Accidentally Breaks His Leg.

Boston, June 2.—Major Berthelot, aide-de-camp to General Brugere, the commander of the French army, and one of the delegates of the French Rochambeau mission, had his leg broken in an accident here. Major Berthelot was visiting the navy yard and made a misstep. He was taken to the Gaulois in a launch.

Beautiful weather prevailed on the last day of their stay in America of the members of the French Rochambeau mission. They will sail for home on the French battleship Gaulois. They received a welcome from the state of Massachusetts, the city of Boston and Harvard university. Escorted by the National lancets, the party proceeded to the state house and made an official call upon Governor Crane.

Fatal Automobile Accident.

New York, June 2.—One man was instantly killed and four other persons were hurt at Grassmore Staten Island, where automobile speed tests were being made under the auspices of the automobile club of America to break the world's record for a mile. The man killed was Andrew Featherstone, run over and a crushed death. The injured: John Brick of Stapleton; both legs broken and injured internally. Mrs. Ella Hay of Concord, Staten Island, badly hurt about the head and body. Captain Thomas Taylor of the quarantine station, both legs broken; one arm fractured and injured about the head and body. It is feared that Brick is fatally hurt. The machine toppled over on top of him, and he was almost dead when it was lifted off. The machine was driven by W. G. Baker of Cleveland, O. Mr. Denzer, also of Cleveland, was with him.

Many Killed.

San Francisco, June 2.—Later details of the earthquake in Guatemala only add to its horrors. Passengers arriving here on the steamer City of Sydney say they understand that 1,400 dead were taken from the ruins of Quetzaltenango. One man, who was there and aided in the work of taking out the bodies, says that over 1,000 had been taken out when he left there May 13, 25 days after the city had been destroyed. Reports of loss and damage on the coffee plantations are beginning to come in, and they practically double the total reported from the towns. The estimated figures run into the millions. Tapachula is a city of about 10,000, and the damage to the town is estimated at about \$200,000.

Protest Against Oat Tax.

London, June 2.—A deputation, representing the owners of half a million horses, visited the chancellor of the exchequer, Sir Michael Hicks-Beach, and strongly protested against the tax on oats and maize. The chancellor, however, informed the delegation that it was impossible to give up the general tax on grain, or specially exempt oats or maize. There was no greater reason, he pointed out, for the exemption of horse food than there was to exempt wheat or other grains used by humans. If the alleged increase in the cost of horse's food was due to the war, with the expected peace there would be a fall in prices considerably greater than the amount of duty.

Not a Financial Success.

Charleston, S. C., June 2.—At midnight President Wagener will turn off the electric lights, the buglers will sound "taps," a salute will be fired, and the South Carolina Interstate and West Indian exposition will have passed into history. The enterprise will be a loss financially, and the stockholders will receive none of their subscriptions back. Some loss will probably fall on the bondholders, and there are a few outstanding debts.

Art Dealer—Yes, that was painted by one of the old masters. But, I beg your pardon, sir, you must not touch it with your umbrella.

Old Mr. Hardplayer—What's the matter? Isn't it dry yet?

TO VOTE ON TUESDAY.

End of the Debate in the Senate on the Philippines Government Bill.

WILL BE PASSED BY A PARTY VOTE.

Nicaragua Canal Proposition the Next to Receive Attention—Cuban Reciprocity Also to Loom Up—House Forecast.

Washington, June 2.—Under the terms of the unanimous agreement reached last Wednesday, the senate will vote at 4 o'clock Tuesday on the bill providing a form of civil government for the Philippine islands, and the entire intervening time of the senate's sessions will be devoted to 15-minute speeches on the bill. The senate met at 11 o'clock on Monday and will meet at the same hour on Tuesday for the purpose of giving additional time for the discussion. A large number of short speeches will be made, but no order for their delivery has been agreed on. The general understanding now is that on Wednesday, after the disposal of the Philippine bill, the Nicaragua canal bill will be called up and made the regular order of business. There will be an effort made to substitute for the Nicaragua bill the bill introduced by Senator Spooner, leaving to the discretion of the president the selection of an isthmian canal route, and its champions are claiming a majority of the senate will support them.

The friends of the Nicaragua route and also the advocates of a policy that would leave the president discretion as to routes now say there is no necessity or prospect for prolonged debate. A number of speeches, however, already have been announced. Senator Hanna will speak at length for the Spooner bill, as will Senator Kittredge. Among those who have indicated their purpose of addressing the senate in the interest of the Nicaraguan route are Senators Harris, Mitchell, Foster (La.), Turner and Morgan.

The present understanding is that the Cuban reciprocity bill will not be discussed during the week. That measure is still in committee, but probably will be reported on Tuesday or Wednesday, its terms having been practically agreed on by the Republican members of the committee, and Senator Platt (Conn.), chairman of the committee, having indicated his purpose to lay the bill before the full membership at an early day. The bill agreed on provides for straight reduction of 20 per cent of the duty of Cuban goods coming into the United States, without imposing conditions as to immigration and labor or indeed any other conditions.

In the House.

Washington, June 2.—During the present week the house probably will act on three important bills. These are the anti-marchist bill, the Pacific cable bill and the senate irrigation bill. No time limit is to be set on the anti-anarchy bill, but it is not believed that it will occupy more than two days. One day is to be given to the bill for the government cable to the Philippines and three to the irrigation bill. In case the general deficiency bill, the last of the big appropriation bills, is ready before the end of the week, the program above outlined may be interrupted.

MINED THE TOWN.

Revolutionists Said to Have Blown Up Colombian Troops.

Kingston, Jamaica, June 2.—The British steamer Atrato, Captain Stranger, arrived here from Colon, Colombia. She reports that there was heavy fighting at Bocas del Toro last week. The revolutionists are said to have mined the town of Bocas. While the government troops were marching into Bocas to recapture it the mines were exploded, and almost all the government soldiers were killed. The revolutionists still remain in possession of Bocas. Colon and Panama are the only towns on the isthmus now in control of the government, and troops are being poured into these two ports with the hope of stemming the revolutionary advance.

Cleveland, June 2.—As a result of a fire that partially destroyed the dwelling of Philip Sogolovitz, an unknown woman, employed as a domestic, was burned to death, while several members of the family narrowly escaped with their lives. Sogolovitz awoke to find the house wrapped in flames and succeeded after great difficulty in saving his wife and children. The domestic lost her life in the attempt to secure her clothing from the burning building.

EX-LIEUTENANT GOVERNOR WATRES, of Pa., says, that "since the morning stars sang together there has not been such a Legislature for iniquity, venality and corruption," as the Legislature of Pennsylvania in 1901, which was largely Republican.

The Republicans at first denied that there were any trusts; then they claimed that their party was opposed to such things, and now they are found favoring them and saying they are the best things we can have, and that they foster all business interests. What beautiful consistency!

The New York World says: "Meat products valued at nearly \$9,000,000 were sent out of the country in April to be sold at lower prices to foreigners than the home market prices to Americans, in a month when, according to the meat monopoly, there was 'a real scarcity of cattle.'" The trust can make the supply small or great, just as it pleases.

WAGES AND THE COST OF LIVING.

The average increase in the rate of wages in the United States does not keep pace with the average increase in the cost of living. This is where the shoe pinches. Save as the laboring man may, he finds that his larger wages do not enable him as the years go by to lay up more money against the day of necessity. Since the trusts insist on increasing the cost of food, clothing and all the products of manufacture which enter into common use they are bound in good conscience as well as from sound business considerations, remarks an exchange, not to oppress "the ox that treadeth out the corn." Whatever the employers of labor may do or fail to do, however, the Congress, which is responsible for laws that put it in the power of the employers of labor to exact an unjust proportion of the product of labor, must set about the immediate repair of the injuries and irregularities that have resulted from the operation of such laws.

To increase the cost of living for the mass in order to pile up unearned wealth in the hands of a few is a wrong that may not be safely persisted in. The tariff must be so revised as to remove its most patent inequities. The best way to put up the wage of labor is to reduce the cost of living. When the necessities of life are cheapened the benefit is so diffused that it finds its way to every hearthstone and helps every man, woman and child in the country.

SARCASTIC COMMENTS

On the Conduct of the War in Philippines and the Savage Treatment of the Natives.

[Life.]
General Taffy announces that the end is in sight. He figures that by the beginning of the rainy season in 1915 not more than 300,000 troops will be needed in the islands.

Some confusion and delay have been experienced in Samar over the claims made by candidates for assimilation that they were under 10. The matter was referred to Colonel Bludd, who decided that a native who knew enough to raise the point was of age.

The climate being too sultry for ping-pong, a new game called quarts is the rage at the clubs. A native is caught and brought in and the players guess as to how much water he will hold under pressure. Each player pays a dollar, and after the test is made at the pump the pot goes to the winner.

Senator Phakit, who has spent over two weeks studying the inhabitants of Northern Looton, says they are a singularly frank and communicative race. He says that merely trying not to tell something means torture to them.

The drought in the neighborhood of Bang-Bang has seriously hampered the work of the Health Department in the administration of the water cure. It is proposed to try compressed air.

To the Citizens of Maysville, Ky.

The Board of Trade has prepared a leaflet, suitable to enclose in letters, giving some information about our city and inviting manufacturing plants to locate here. By enclosing one of these to a friend, or a business correspondent, you may interest some one, and thus help Maysville and Mason County. You can get them from Mr. H. C. Curran or at the BULLETIN or Ledger offices.

GRADUATION and COMMENCEMENT

The gown is not the least important feature of the occasion. The Bon Ton says: "It is a mistake to have a graduation or commencement gown made too elaborately, or of too expensive material. It should be something dainty, fresh, girlish and distinctive." Fashion commends soft wools, silk and wool or one of the many pretty cotton materials shown in such generous variety this season. The following list will be suggestive:

Pretty Cottons for Commencement Frocks.

India Linen in seven qualities, priced accordingly—74c, 84c, 10c, 124c, 15c, 19c, 25c. Each quality excellent, but we call special attention to the 15c grade. It is the best we've secured in years. Paid no more for it than for the usual 15c India Linen, but undoubtedly we got the best value of our half century buying. Other desirable cotton fabrics are Swiss Batiste—15c, 25c. MISS FAY LEE,

President of the Shakespearean Club, Kansas City.

"Your booklet came to my home like a message of health when I had suffered with headache, backache and bearing-down pains. I was weak, nervous and hysterical and had not consulted any doctor, thinking it would pass away in time, but instead I found that the pains increased and were more frequent. I decided to try Wine of Cardui and in a short time was much improved. It seemed to act like a charm. I kept up the treatment and the result was most satisfactory. Words fail to express my gratitude for the suffering that is now saved me. I am in fine health, physically and mentally. I can only say 'thank you', but there is much more in my heart for you."

nervous tension. The nerves soon begin to give way under the strain. You perhaps jump at any unusual disturbance, or laugh or weep, hysterically, at no apparent cause. That is what Miss Fay Lee, 603 1/2 North Seventh Street, Kansas City, Kansas, was coming to when she rescued herself by taking Wine of Cardui. The Wine made her a strong, healthy woman again, as it has made a million other women strong and healthy. By inducing regular menstruation the entire system is relieved of the terrible wasting drains. The ligaments which hold the womb in place are strengthened by a healthy flow and that organ is returned to its normal position. Returning health is the result. This is what Wine of Cardui has done for thousands of the best women in America.

BEARING-DOWN pains are the worst that women know. If you are suffering from this trouble you need not be uncertain about it. The pains in the abdomen and back that feel as if heavy weights were pulling down on the nerves of the stomach are "bearing-down pains". They may not be particularly severe at present but they are growing worse. That headache which nearly drives you distracted now is caused by the terrible

FOR SALE!

Mason County Home

I will sell privately my home situated one-half mile from Germantown, nearly opposite the fair grounds. The property consists of a large brick house and between six and seven acres of land. The place is supplied with all the conveniences of a country home, viz: Two fine wells and a large cistern at the kitchen door, also a pond at the stable; all necessary outbuildings; double corn crib, stable, coal, wood, buggy and hen house for rendering lard. One-half acre of ground is utilized in a first-class orchard of apple and peach trees. All the fencing is in good condition. The house is a two-story brick and contains ten rooms and two halls, front and side verandas and two porches. It is well supplied with presses and has two cellars. Will sell on easy terms. For further information call on or address MRS. CARRIE H. WALTON, Germantown, Ky. 19-2w

THE BEE HIVE

Come to Headquarters!

At this time, when students of colleges and schools are looking forward to the closing exercises, they naturally devote some thought to the question of personal adornment for these functions and for vacation times. In this respect we can be of great aid to you. We study your every need and can supply your every want, so come to headquarters, the largest, best and fastest growing house in Maysville.

FANS.

White, of course, \$1.98 that others ask \$3.50, or down to 29c., if your pocketbook is not so full, and the cheap one is of just as good a style.

HANDKERCHIEFS.

Make a pretty gift. Embroidered and Hemstitched, all linen, for 25c., really the 50c. kind; higher up if you want them, but this is a special number.

WRIST BAGS.

HOSE.

White drop stitch, extra good quality, style perfect, price 25c.

MERZ BROS

FOR THE FARMER.

Big Barns Are Unprofitable—Reasons Why Smaller Buildings Should be Erected.

[J. S. Trigg, of American Press Association.] Unless adequate insurance is to be carried against fire, lightning and wind we would not build the big barn, but two or three smaller ones, separating them some distance from each other. It is very difficult to save the animals in case of fire when so many are massed in one big building and equally hard to save other property. So many of these big barns are struck by lightning every year, and the entire hay crop and often the small grain crop of the farm burned up, that the big barn is an unprofitable proposition. Even where full insurance is carried one-third of the loss still falls on the owner, besides all the annoyance connected with the loss of his stuff. We would divide up, keep the grain in a granary, the cows in a cow barn, the horses in a horse barn, the machinery in a machine shed or house and the corn in cribs, each well separated from the other.

The act relating to child labor, passed at the last session of the Legislature, will go into effect about the middle of June. It provides that the County Judge shall have the right to say what children shall work.

See us for low prices on diamonds and watches. Our stock is the best; our prices the lowest; assortment the largest—all guaranteed to be cheaper than goods of same quality can be duplicated for anywhere. MURPHY, the jeweler.

Morgan Johnson, who was pardoned by Governor Beckham last week, formerly worked for the Grover family near Sardis and it was through the efforts of Judge W. T. Kenton, whose wife was a Miss Grover, that the old man obtained his release. He is now at Judge Kenton's home.

It is officially reported that the contract for extending the C. and O. railroad from Whitehouse to Pikeville has been closed and that work will begin on the road in a few days. There is considerable hurry on the part of the C. and O. people because the Seaboard Air Line is about to secure possession of the Pike County coal fields. The valley is well filled with surveying corps from Whitehouse to Pikeville. The line for the C. and O. has been located and contracts for rights of way are being closed.

There will be a continuation of the closing exercises of Hayswood this evening in the entertainment given by the physical culture class at the opera house. Tomorrow evening the concluding exercise will take place in the auditorium of the First Presbyterian Church beginning promptly at 8 o'clock, when Dr. Hobson, of Chicago, will give an address on "Originality and Conventionality." In addition to this there will be a few music selections and delivery of certificates. The public are cordially invited.

Andrews, Clyde Garr, Robert Weedon and Robert Harbeson, of Flemingsburg, first prize; Female Vocal Duet—Misses Jennie Darnall and Emily Amos, Flemingsburg, second. In the athletic contests, Clyde Garr, of Flemingsburg, won the fifty-yard dash. The next tournament will be held at Mt. Sterling.

There's thieving going on at other places as well as here. Rev. Mr. Laird, of Millersburg, drove a thief from his coal house Wednesday morning, when he rose very early to come down to Washington.

Mr. Thomas Swart, who left Thursday for his home at Maurine, Mo., is the owner of 1,350 acres of land, valued at \$60 an acre. He went to Missouri about thirty years ago where he has amassed quite a fortune.

Rev. Eugenia Bell, the Korean missionary, has been in that country some seven years, but came to his father's home, in Shelby County, about a year ago to bring his small children on account of the loss of his wife. He expects to return soon.

Miss Clarissa Grimes, sister of Mrs. Sophia Arthur, widow of C. B. Arthur, of Needmore, died at 6:30 o'clock this morning after an illness of a week or so with pneumonia. Funeral at home Tuesday at 3 p. m. Burial at Shannon. Miss Grimes was seventy-six years of age.

George C. Buchanan, the Louisville whisky broker, now estimates the total production of whisky in Kentucky for the year ending June 30th at 24,500,000 gallons. His former estimate was 27,000,000 gallons, but he was compelled to change his figures on account of the suspension of numerous distilleries.

The plans of Frank P. Milburn, the Columbia (South Carolina) architect, were accepted for a court house at Paris, to replace the one destroyed by fire last October. The accepted plans show a very handsome building of the Ionic order, surmounted by a dome modeled after that on the Administration Building at the World's Fair. The estimated cost will be \$160,000.

The Caleb Powers case will not be argued in the Court of Appeals till the fall term of that court. This agreement has been reached by the attorneys on both sides. The fall term does not begin till the third Monday in September, and it will likely be ten days after that before the argument is had. The Jim Howard case will be argued this week, and a decision is expected before court adjourns for the summer.

Falmouth Penitentiary: "Mr. Thomas D. Kerr, who has been the guest of his daughter, Mrs. Ralph Bonar, for nearly three weeks, will leave to-day for his home near Maysville. Mr. Kerr's grandfather was one of the pioneer settlers in Maysville, having come to that place, then known as Limestone, in 1798, and has himself resided on the same farm, two and one-half miles from Maysville, something over seventy-two years."

The Confederate memorial services tomorrow morning will attract a large crowd. Following the services at the cemetery, the Southern Cross of Honor will be conferred on forty-one veterans, the ceremony taking place in the floral hall at the fair grounds. An address will be delivered at the cemetery by Elder R. E. Moss, and at the hall by Judge Wall and that brilliant and eloquent orator Col. Breckinridge.

Mr. Eddie Hill sends his parents, Mr. and Mrs. E. L. Hill, a clipping from a St. Louis paper telling of an exciting experience in which he figured at Jefferson Barracks one day last week. The stable of Troop K, Fourth Cavalry, of which he is a member, was struck by lightning and the entire barracks was threatened with destruction. The flames ignited a large quantity of ammunition, rendering the fighting of the fire all the more dangerous.

Paris Democrat: "In coming to Paris on the L. and N. Thursday afternoon S. M. Worthington, of Fern Leaf, lost his pocketbook containing \$45. He did not miss it until about 10 o'clock yesterday morning as he had several silver dollars in his pocket and had no occasion to use the money in the book. He wired the agent at Maysville of his loss, and received a reply that it was in charge of W. H. Anderson, of Paris, Master of Trains. Captain Groves, the conductor, picked it up in the car and handed it over to Mr. Anderson, who returned it to the owner."

Suit for \$5,000 damages has been instituted in the Bourbon Circuit Court against Jailer Geo. W. Judy and his securities, John T. Hinton and Thos. J. Judy, by the administrator of Chas. Sosby, of Carlisle. It is alleged that Sosby was shot by the Deputy Jailer and while wounded and an inmate of the Bourbon County jail, did not receive proper medical attention and that death resulted through neglect.

The Keystone Commercial Company succeeds the Henderson-Johnson Company in the egg, poultry and produce business in this city. Mr. John Y. Dean, who has built up such an immense trade for the house, will continue in charge of the Maysville branch. It is the intention of the new company to largely increase the business at this point, and if any one can do this Mr. John Y. Dean is the man.

THE ROLLMAN Cherry Seeder!

Most useful and perfect contrivance for the purpose of the age. No housekeeper should be without one. It makes cherry-seeding a pleasure instead of a task. Does not crush the fruit or cause any loss of juice; a practical machine for large or small cherries. The seed-extracting knife drives the seed into one dish and throws the cherry into another. The marks of the knife can scarcely be seen on the seeded fruit. Capacity, from twenty to thirty quarts per hour.

CINCINNATI TOBACCO MARKET.

It Remains Dull, Notwithstanding Light Offerings and Poor Outlook for New Crop.

New (lbs).....	360	480	
Old.....	404	12	
Total offerings.....	764	592	
Total rejections.....	154	59	
Actual sales.....	610	533	
Total receipts.....	578	589	

The 300 lbs. new tobacco offered averaged \$5.68 per 100 pounds, as against \$6.02 for the 302 lbs. last week and \$7.11 for the 580 lbs. for the corresponding week last year.

The 404 lbs. old tobacco averaged \$8.52 per 100 pounds, as against \$9.05 for the 104 lbs. last week and \$7.29 for the 12 lbs. in the corresponding week last year.

With continued light offerings, mostly of the low and medium grades of new and old tobaccos, the market for the week was a featureless one, with very little variation in prices from previous week's quotations. The common lugs and trashes of the new crop and the old smokers were the best features of the market during the week. Medium to good leaf of the new from \$7.50 to \$9 were in good demand and all hogsheads in prime order and free from moisture were quickly taken at full prices.

Choice leaf was probably the weakest spot in the sales of new, showing a slight shading from previous week's figures, a few packages selling at \$12.25 to \$13.50, while bright cutters touched \$19.50.

In old tobaccos the offerings exceeded the new, something unusual at this season of the year. The better grades were very sparingly offered, a few choice cutters selling at \$15 to \$16.50, while cigarette wrappers reached \$20, that price being paid for a single package which sold at the Globe Warehouse on Wednesday.

The color strippers from \$9 to \$11 and bright

cutting leaf ranging from \$12 to \$14 were the best sellers in the old, but the supply of these sorts was limited and did not begin to meet the requirements of manufacturers.

Red tobaccos of the old were dull and neglected, owing to the apathy displayed by the big buyers, and a considerable portion of the week's rejections were of these sorts.

Much of the low grades in both new and old were taken for export, the buying in this line being a prime factor in sustaining prices.

Reports from the growing districts are more encouraging and indicate that the recent rains have aided materially in giving plants a start. Much complaint is heard, however, of the ravages of cut worms and a largely decreased acreage is almost certain this year. Receipts during the week were light and will probably continue so until well into June.

A TIMELY RESCUE.

The Pioneer Who Had to Work Hard, Only to be Shot Down by Indians.

There is nothing more thrilling than to see Buckskin Bill leading his cowboys and scouts to the rescue of the besieged pioneer, who is surrounded by Indians, fighting desperately to save his doomed wife and children. The crack of the unerring white man's rifle is echoed by a yell of terror from the astonished redskins, who finally gather up the remains of their decimated band amid another fusillade, hotly pursued by the daring scout and his intrepid followers. It is a scene that leaves a lasting impression on the mind, and gives a true idea of life in the far West before civilization was carried there by such men as Buckskin Bill. Those who attend the monster Wild West exhibition here Monday, June 16th, will see this in all its vividness, and many other things besides.

EXCURSION TO ZOO.

School Children of Maysville and Mason County to Have An Outing Saturday, June 7th.

To the Parents and School Children of Maysville, Ky: The Chesapeake and Ohio railway has arranged to run an excursion to Cincinnati, to give the school children an opportunity to visit the Zoological Gardens on Saturday, June 7th, 1902. The excursion will be an educational advantage as well as a pleasure to the children.

The rate from Maysville to Cincinnati and return will be \$1.10, which includes car fare from the C. and O. depot to the Zoological Gardens and return, and admission to the gardens. While the excursion is for the benefit of the pupils and parents this year, the success we had last year is a guarantee that every one going on this school excursion will have a pleasant time.

In order that a sufficient number of coaches may be on hand to accommodate all wishing to take the trip, I should like all tickets to be bought by June 5th.

The excursion will leave Maysville 7:15 a. m., Saturday, June 7th, and the run to Cincinnati will be made without a stop. Special cars will be at Fourth and John streets on arrival of special train and transport all excursionists to the Zoo Garden. Train returning will leave Cincinnati 6:15 p. m., giving all the excursionists a full day in the Queen City.

The excursion will be under the supervision of the railway officials. W. W. WIKOFF, Agent C. and O. Ry., Maysville, Ky.

Women Who Wear Well.

It is astonishing how great a change a few years of married life will make in the appearance and disposition of many women. The freshness, the charm, the brilliance vaults like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage. Many neglect to deal with the unpleasant drains which are often consequent on marriage and motherhood, not understanding that this secret drain is robbing the check of its freshness and the form of its fairness. As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. Half a million women and more have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well.
